PREPARATION OF THE DIRECTORY

Preparation of the Directory has spanned two years. Therefore, many individuals recently finishing their formal education and entering the field of tree physiology may be omitted from this Directory. Also, many individuals may have changed positions and addresses. Finally, even though a repeated effort was made to contact individuals in every country, several countries provided very few individual responses, if any. We apologize for all these omissions. Every effort will be made to revise and update this Directory on a five-year cycle. All corrections should be brought to the attention of Merrill C. Hoyle, Forestry Sciences Laboratory, Northeastern Forest Experiment Station, USDA-Forest Service, Concord-Mast Road, Box 640, Durham, NH, USA.
